[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Profile

Detail-oriented software engineer with hands-on experience building web applications and data-driven solutions. Committed to continuous learning, analytical problem-solving, and writing efficient, clean code.

Experience

AheadONE Technologies Private Limited

July 2025 – Dec 2025

Software Engineering Intern

Coimbatore, India

Engineered full-stack features using Angular and Spring Boot, optimizing backend workflows to significantly reduce API response latency. Implemented Role-Based Access Control (RBAC) for secure data transmission.

Education

Coimbatore Institute of Technology

Coimbatore, India

Integrated M.Sc. Software Systems CGPA: 7.91 (Sem V)

July 2023 – Present

Sri Chaitanya Techno School

Coimbatore, India

Class XII (CBSE) Biology-Physics-Chemistry-Mathematics CGPA: 8.44

2021 – 2023

Projects

CrowdSafe.ai | Python, YOLOv8, FastAPI, RabbitMQ, React

- Developed a computer vision pipeline fine-tuning YOLOv8 and OpenCV to analyze real-time feeds for spatial densities and risk heatmaps.
- Architected a high-throughput event streaming system using FastAPI and RabbitMQ to establish an asynchronous Pub-Sub architecture.

Lung Cancer Detection System | Python, TensorFlow, ResNet50, Streamlit

- Built a ResNet50-based computer vision model for lung CT image classification, improving generalization via targeted augmentation.
- Deployed a Streamlit dashboard enabling real-time medical imaging predictions and visual analysis.

DevHive - Developers Collaboration Platform | React, Node.js, Express.js, MySQL

- Designed a scalable project management application featuring secure authentication and authorization mechanisms.
- Developed RESTful APIs and structured backend architecture to support efficient CRUD operations and project lifecycles.

A-R Mercerisers Digital Portfolio | React, Tailwind CSS, Vercel

- Designed and deployed a responsive corporate digital platform for a textile processing firm, ensuring high-performance asset loading and SEO optimization.
- Crafted a modern, mobile-first UI/UX using Tailwind CSS to elevate brand presentation and client engagement.

Technical Skills

Languages: Python, Java, JavaScript, SQL

Frontend: React, Angular, HTML, CSS, Tailwind CSS

Backend & Frameworks: Node.js, Express.js, Spring Boot, FastAPI (Basics), Flask, Django

AI, ML & Data: TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy, LLMs, RAG (Basics)

Databases: MySQL, MS SQL Server, Oracle, PostgreSQL(Basics)

Tools & Cloud: Git, GitHub, Docker, RabbitMQ, AWS (Basics), Vercel

Areas of Interest

Software Engineering, Artificial Intelligence, Machine Learning, Full Stack Development

Extracurriculars & Achievements

- Joint Secretary, Student Developer Cell CIT:** Coordinated technical initiatives and guided students through workshops.
- Certification:** GenAI Mastery (NxtWave & OpenAI Academy)
- Certification:** Data Analytics Essentials (Cisco)
- Achievement:** Selected as a finalist in Inceptrix 2.0, a national-level innovation challenge conducted by Jain University.
